Bushido Angel Adventures

THIRD ANNIVERSARY

Well, well, well... although BAA had a slow start, we've been going for 3 yrs.

And, although our schedule has been crappy of late, we want to thank all of you for your patience and understanding.

Please enjoy today's releases!!

BUSHIDO ANGEL ADVENTURES//NOV 2008

MEOW
Oh.
I'm home.
meow
CLICK
meow
meow
!
Sougo? Is that you?
Yeah.
PERK UP

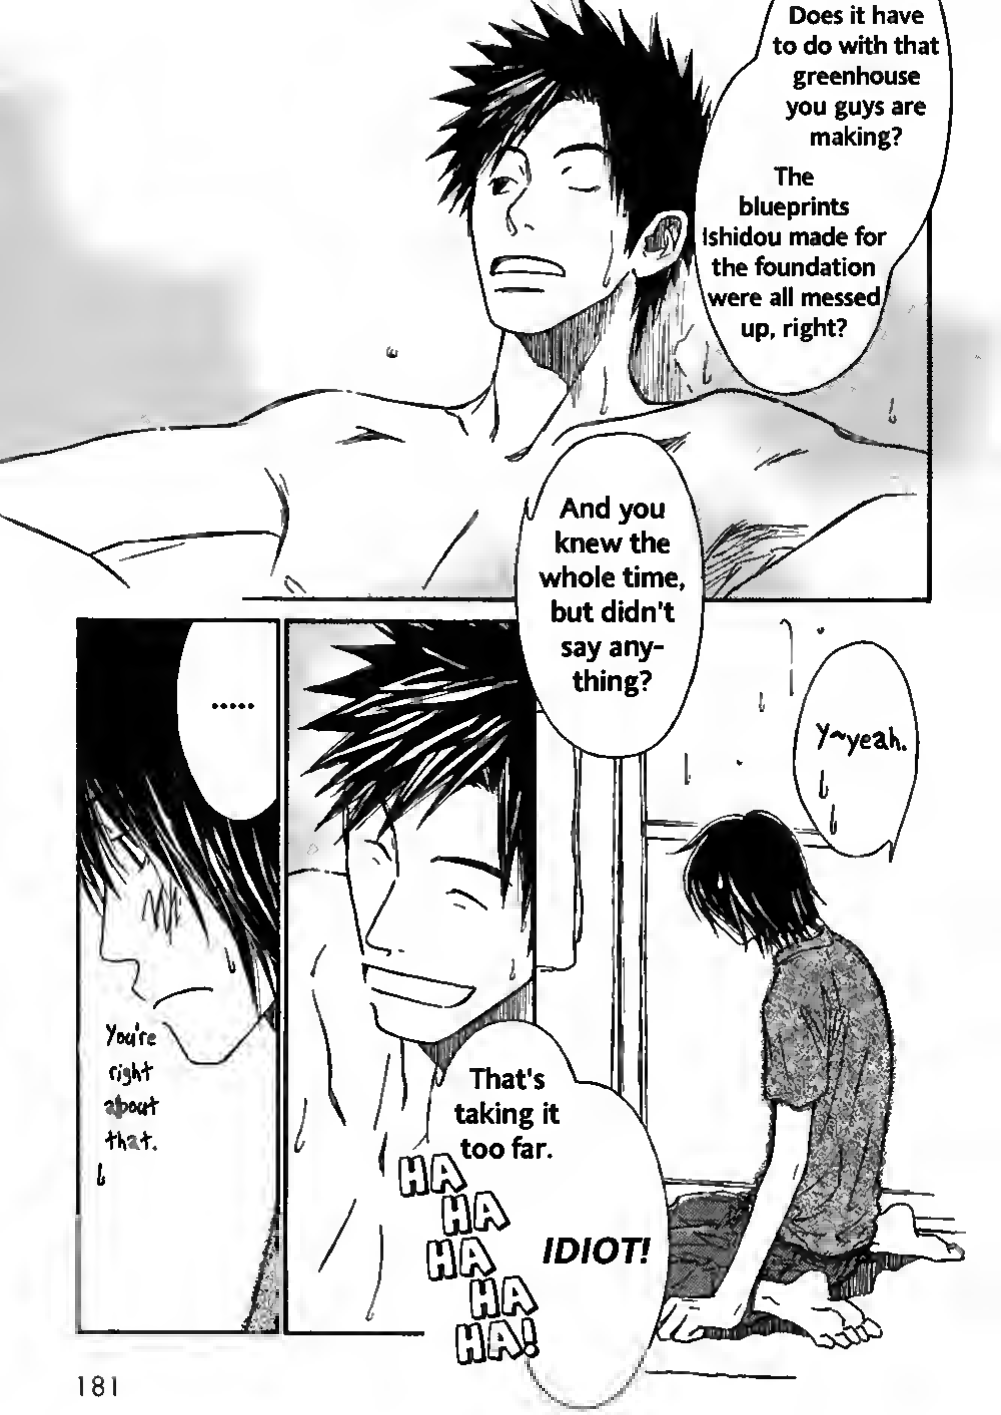
BANG
pitter
patter
pitter
patter
meow
meow
SITS UP
brush
pant
pant
brush
.....
meow
meow

You don't usually welcome me home, do you?
No...
Why are you so flustered?
.....
Well?
You've obviously ...
...been sleep-ing.
Huh?

meow
Is the bath ready?
.....
Sougo! Are you going to eat dinner?
I ate on my way home.
meow meow

FLUMP
Oh. I got oil on my uniform today. How did that happen?
.....
clank clink

Huh?
How long are you gonna keep following me around the house?
You wanna take a bath with me?
You've come as far as the changing room...
Oh!
Really?
Then what is it?
N~ no!
That's not what I want...
AWAAH!



Does it have to do with that greenhouse you guys are making?
The blueprints Ishidou made for the foundation were all messed up, right?
And you knew the whole time, but didn't say anything?
Y~yeah.
.....
You're right about that.
That's taking it too far.
HA HA HA HA HA!
IDIOT!

I bet Ten lost it.
heh heh heh
He may not look like it, but he's got a really bad temper.
That's for sure.
S~so...
...that's why...
...I'm...
...if you can, Sou-kun ...
Okay.
Huh?
I'll modify the blue-prints for you.

I guess, for now, you want to avoid dismantling the whole thing?
Easy easy
After I get out of the bath, I'll make the changes for you right away.
REALLY ?
You will?!
What's up with that?
It's really odd.
Huh...?
You don't usually get worked up over stuff like this, Furuse.
It's really bizarre.

You usually lack energy, except when you're angry.
I lack energy...
That's what Sou-kun said...
Is making a greenhouse really that interesting?
....
HEH
But keep as much as you can of what we've built so far.
Is that okay?
CLICK
Right.
That's what a modified version means.
Yeah.
I see.
Hum...
creak
Uh, yeah...
...whatever...
You just need to make sure the measurements aren't screwed up.
Should I make it as simple as possible?

stare
No.
You just observe everything so intently.
W~ what?
Am I bothing you?

I'm just fascinated...

...by the quick flow...

...and accurate movement...

...of his long fingers.

.....
Don't you think 90% of his bad mood...
...is probably not Ichi-san's fault?

Okay.
The frame-work is done.
huh?
Already?
That was fast!
Now, give me the old measurements in order. You know all the numbers by heart, right?
I'll enter them really quickly, then make corrections where they got messed up.
O~ okay.
tap tap tap
Well... uh...
According to the dia-gram, the tallest part is...
When we're chatting like this..!
.....

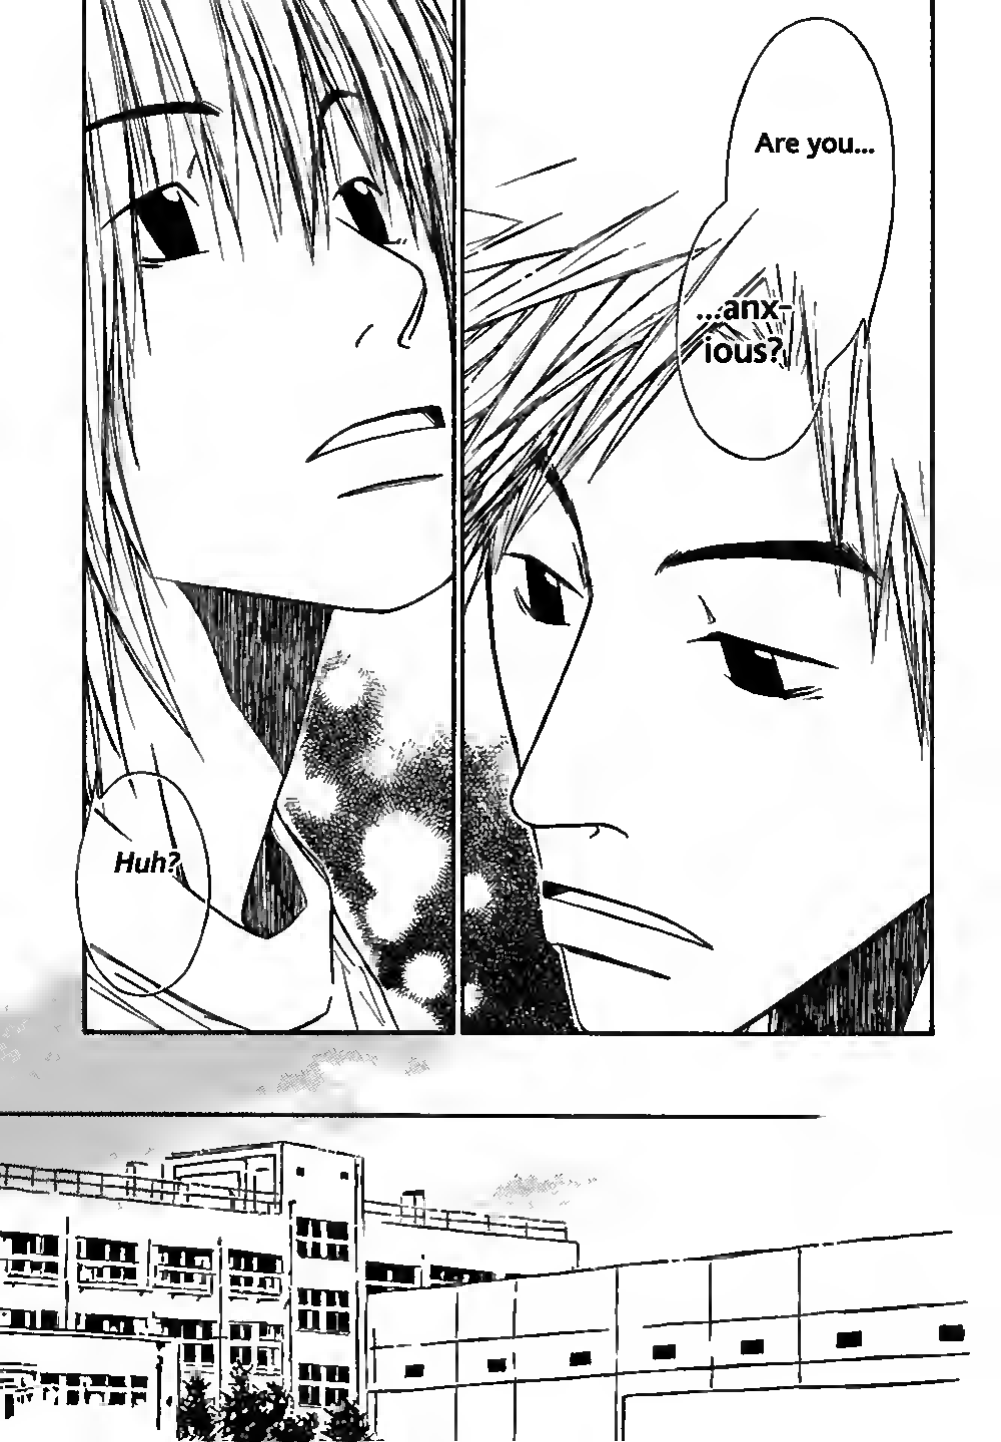
ARE YOU LISTENING, SOU-KUN?
Sorry. No, I wasn't.
HA HA HA!
...Furuse is just the same as usual.
But the upper part is...
ANNOYED
Or...
Okay for you, but not for me?
...half the time, you don't listen to other people, either.
Well...

...do you actually...
...have something you want to tell me?
Doesn't it depend on the amount of overindulgence, too?
:

S~Sou-kun?
Is some-thing wrong?
.....
He's getting anxious.
If it were me, I'd definitely cry...
...or something.

Huh
?

Nn.
Haa
Haa
squeeze



Are you...
...anx-
ious?
Huh?

You're so awe-some!
I'm never letting go!
I love you, Sou-kun...!!
What I'd expect from my cousin! I knew you'd come through for us!
Oh.
Neverthe-less, these blueprints are beauti-ful!
WA HA HA HA HA!
It's no big deal...

Confidence doesn't mean anything.
Well, we thought they were accurate, right?
I mean, why didn't we ask Sou-kun to redraw the blueprints from the start?
Why, oh why...?!
HOORAY FOR SOU-KUN!
HOORAY FOR TECH COURSES!
YAY!
It's easy for someone taking tech courses to make something like this on the computer.
BUT I'M SO HAPPY!
This all we need. Now we can complete the project without returning to square one.
Just as I expected from Sou-kun!
H~hello...
U~um...

Look! Look! Sou-kun is here...
Hey, Sono-chan.
Welcome!
Don't just stand there if you're coming in.
So this guy is...
Huh?
I've got some-thing for you, too.
...Sou-kun.

Separate blueprints for the walls...
He said something would be better than nothing.
Furuse, that is...
The blue-prints...
He meant ...
...for me, too...
We should get Sou-kun to make them.
T~
thank you!

Where did Furuse go?
He was here until Sou-kun arrived. Why'd he disappear?
So?
yayes.
That's great, Sono-chan.
Oh.
Yeah.
I wonder where he went...
